Northwest
Education Cluster

Growing Northwest Businesses
Helping Students Learn

Mission

The Northwest Education Cluster's mission is to bring together Northwest education companies, schools and government entities for the greater success and impact for all.

The Northwest Education Cluster is a consortium of education technology companies in Oregon and SW Washington.

Founded in 2003 by several business leaders in the education industry, the NWECC is organized as an informal network of companies. It provides an effective forum for collaboration, where members can:

- articulate shared needs
- address common challenges
- consolidate resources
- recruit talent
- build strong relationships with the education community

Objectives

- Explore the potential of the education industry as an economic driver for the Northwest region.
- Secure funding for K-20 education to support student learning.
- Create partnerships between educational institutions and the education industry
- Promote the visibility of the education industry.
- Foster a business climate conducive to competing in the global Marketplace.
